

SATURDAY, NOVEMBER 7, 2020
RANCHO BERNARDO INN

In 1986, with a dream of starting an organization founded on integrity, service, and honor, Bill Z opened the doors of LifePro Financial Services, Inc., a company dedicated to the financial protection and preservation of families and their loved ones as well as to the advisors who serve them with proven financial strategies. Bill's passion for the financial industry has always been based on his core belief that if he did what was right for the consumer, and LifePro's partners, everybody would win.

Bill's vision and personal campaign to help others did not end with the countless hours he spent each week with financial institutions, consumers, and advisors. Over the last 30 years, Bill has also devoted his time to help individuals inside and outside the industry overcome challenges on their personal paths to recovery from addiction to drugs and alcohol. Bill is the founder of an addiction recovery group at his Clubhouse that has met every week for well over 20 years. For several years now, he has devoted every Saturday to sponsoring and mentoring those in need. He has personally mentored over 500 people both inside and outside the addiction community. The actual amount of time Bill has spent giving back can be measured in decades.

In 2015 Bill was diagnosed with ALS, a progressive neurodegenerative disease that affects nerve cells in the brain and spinal cord. Through ups and downs, procedures, and treatments, Bill has maintained the same great attitude that has brought him so much success in life and has become a dedicated advocate and crusader for those who share his battle against this vicious disease. Bill Z is more than just an entrepreneur, mentor, advocate for anyone in need, and he's more than just an ALS warrior. Bill Z is a true humanitarian and one of the greatest men to grace our community.

Although 2020 has brought many challenges, the LifePro Family continues to be extremely passionate about fundraising and advocating to help find a cure for ALS. Due to current health concerns and restrictions, this year's tournament will be slightly different from years past, but the safety and well-being measures put in place will help to ensure another successful tournament. For more information on the COVID-19 protocols, please visit www.lifepro.com/billz-classic.

Thank you for helping Bill Z and others who boldly fight their courageous battles by being a part of the third annual Bill Zimmerman ALS Golf Classic!
